

Equestrian Park Planning - Violet F. Stout Memorial Park

- I created all plans and renderings for a future, \$7,000,000 equestrian park
- the plans and perspectives were presented through Powerpoint to stakeholders at a series of meetings to involve the community
- this perspective uses a background photo of the site, with Photoshopped figures and meadows (to the left) to show how a shared hiking/ equestrian trail would appear
- the Park will have various trail types, 2 equestrian arenas, a community garden, campsites, archery, and other amenities
