

Park Planning

Splash Pad/Park

- the city's economic strength lies in its large air force base
- an American Flag design is incorporated for patriotic symbolism
- the center stars of the splash pad gently shoot up water
- the pad is equipped with changing rooms
- a raised deck surrounds the pad, allowing parents to watch their children from a higher elevation
- the park area is contoured into 4 grass berms for play-interest
- the grass berms are also at a higher elevation than the pad and deck, allowing for views towards the pad

Tools: AutoCAD, Photoshop, SketchUp, InDesign
