Subtotal: \$34,950	
= \$1,756,750 or \$2,631,250	
(+20% Design and Construction)	
+ \$351,350 or \$526,250	
Total: \$2,108,100 or \$3,157,500	

switchback with retaining walls for safety

bridge start

bridge start 165' bridge span

7.9% ramp slope includes
handicapped landings every 30'

- the second area connects a future trail that is to run through a roundabout to the North with a future trail to the south of the road
- the North side of the road has a steep slope, so safety measures should be in place, as well as multiple trail turns, for walkers and bicyclists coming down the hillside
